SECTION III - RISK FACTORS

*An investment in equity shares involves a high degree of risk. The risks described below together with other information contained in this Letter of Offer should be carefully considered by the prospective investors before making an investment decision. Prospective investors should carefully consider all the information contained in the section titled “**Financial Information**” on page 71 for the information related to the financial performance of our Company. The risks described in this section are those that we consider to be the most significant to our business, results of operations, financial condition, cash flows and prospects. Additional risks not presently known to us or that we currently deem immaterial may also adversely affect our business operations. If any or a combination of the following events occur, our business, results of operations, financial condition and prospects could materially suffer, the trading price of our Equity Shares could decline and you may lose all or part of your investment. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein.*

The following risk factors have been determined by our Board of Directors on the basis of their materiality. In accordance with Clause (VI) in Part B of Schedule VI of the SEBI ICDR Regulations, the following factors have been considered for determining the materiality: (i) Some events may not be material individually, but may be found material collectively, (ii) some events may have material impact qualitatively instead of quantitatively; and (iii) some events may not be material at present but may have material impact in the future.

INTERNAL RISK FACTORS

- 1. We derive a significant portion of our revenues from our top three customers. The loss of revenues from such customers, in particular would have an adverse impact on our results of operations and financial condition.***

We are dependent on a limited number of key customers for a significant portion of our revenues. For the Fiscals 2022 and 2021 our top three customers contribute approximately 87.36% and 93.57%, respectively, of our total revenue from operations out of which major portion of the revenue was from Atul Limited. Furthermore, most of the business that we conduct with our top customers is through purchase orders that are placed from time to time. We do not typically have exclusivity arrangements with our customers, including our key customers. We cannot assure you that we will be able to maintain historic levels of business from our key customers.

The loss of one or more of our significant customers or a reduction in the amount of business we obtain from them whether due to circumstances specific to such customer, such as pricing pressures or adverse market conditions affecting our supply chain, the specialty chemicals industry or the economic environment generally, such as the COVID-19 pandemic, could have an adverse effect on our business, results of operations, financial condition and cash flows.

We presently do not have any long-term or exclusive arrangements with any of our customers and we cannot assure you that we will be able to sell the quantities we have historically supplied to such customers. In the event our competitors’ products offer better margins to such customers or otherwise incentivize them, there can be no assurance that our customers will continue to place orders with us. Most of our transactions with our customers are typically on a purchase order basis without any commitment for a fixed volume of business. There can also be no assurance that our customers will place their orders with us on current or similar terms, or at all. Further, our customers could change their business practices or seek to modify the terms that we have customarily followed with them, including in relation to their payment terms. In the event our customers alter their requirements, it could have a material adverse effect on our business growth and prospects, financial condition, results of operations and cash flows. In addition, our customers may also cancel purchase orders at short notice or without notice, which could have an impact on our inventory management. In the event of frequent cancellations of purchase orders, the same could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Although our Company maintains long-term relationship with our major customers, there can be no assurance that we will continue to maintain such relationship with our customers. Further, in the event our

customers experience any delays in placing orders with us, or if they prefer to buy the products of our competitors, it could have a material adverse effect on our business growth and prospects, financial condition, results of operations and cash flows. Our inability to maintain our existing customer network could have a negative impact on our sales, business growth prospects, result in slowdown of operation, financial conditions and cash flows. Further, the performance of our customers, their sales network and their ability to expand their businesses are crucial to the future growth of our business and directly affect our sales volume and profitability. If any of the customers fails to sell our products to the end customers, or if our relationships with our customers are affected, our profitability could be significantly affected.

2. *Our Company has heavy reliance on related party transactions and may continue to do so in the future.*

Our Company has entered into transactions with certain of its related parties. Our sales to the related parties amount to ₹ 3,141.17 Lakhs and ₹ 2,376.38 Lakhs for the Fiscals 2022 and 2021, respectively which have contributed approximately 72.24% and 78.12% of our total income from operations during these periods. For details of related party transactions of our Company for the Fiscals 2022 and 2021, as per the requirements under Ind AS 24 'Related Party Disclosures' please see Financial Statements - "Note 26.3: Related Party Transactions" on page 106 of this Letter of Offer.

Other than the above mentioned transactions, we enter into transactions with related parties, such as with our Holding and Subsidiary Companies in the ordinary course of our business, such as for, among others, provision of loans, lease of premises, purchase of goods and services, provision of professional services, managerial remuneration and contributions to various funds. All such transactions have been conducted on an arm's length basis, and in accordance with the applicable laws and regulations pertaining to the evaluation and approval of such transactions and have not been prejudicial to the interests of our Company.

While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Further, it is likely that our Company will continue to enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

3. *We are largely dependent on one supplier for our raw materials and an inability to procure the desired quality, quantity of our raw materials in a timely manner and at reasonable costs, or at all, may have a negative impact on our business, results of operations, financial condition and cash flows.*

We purchase our major raw material i.e. Sulphur mainly from one supplier on formula based pricing as mutually agreed upon. Further, our total purchases of raw materials are concentrated from only seven suppliers. However, there is no direct/ indirect relationship between such entities and our Company, our Promoter, Directors and Promoter Group members save and except Atul Limited, which is the supplier of caustic soda (one of the raw materials which constitutes less than 1% of our total purchases) to our Company. Our ability to remain competitive, maintain costs and profitability depend, in part, on our ability to source and maintain a stable and sufficient supply of raw materials at acceptable prices.

We have a mutual understanding with our primary supplier and we also enter into agreement with them from time to time. However, the absence of long-term supply contracts subjects us to risks such as price volatility caused by various factors viz. commodity market fluctuations, climatic and environmental conditions, production and transportation cost, changes in domestic government policies and regulatory changes. If we cannot fully offset the increase in raw material prices with increase in the prices for our products, we will experience lower profit margins, which in turn may have a material adverse effect on our results of operations, financial condition and ultimately lead to a liquidity crunch. In the absence of such contracts, we are also exposed to the risk of unavailability of certain raw materials in desired quantities and qualities, in a timely manner.

Although we have not faced significant disruptions in the procurement of raw materials in the past, COVID-19 pandemic temporarily affected our ability to source raw materials from certain vendors who were unable to transport raw materials to us. There can thus, be no assurance that in future we will be able to procure the required quantities and quality of raw materials commensurate with our requirements. There can also be no assurance that a particular supplier will continue to supply us with raw materials in the future. Any delay in supplying finished products to customers in accordance with the terms and conditions of the purchase orders, such as delivery within a specified time, as a result of delayed raw material supply, could result in the customer refusing to accept our products, which may have an adverse effect on our business and reputation. Further, we cannot assure you of our ability to enter into fresh agreements or renew our existing arrangements with suppliers on terms acceptable to us, which could have an adverse effect on our ability to source raw materials in a commercially viable and timely manner as well as the commitments to our customers, which may impact our business and profitability.

4. Our Company has incurred losses in the past and may continue to suffer losses in the future.

We have incurred loss after tax on consolidated basis of ₹ 1,215.87 Lakhs in the nine months period ended December 31, 2022 and as a result our Company had negative EPS for this period. Further, we may incur losses in future for a number of reasons, including the other risks described in this Letter of Offer and we may also encounter unforeseen expenses, difficulties, complications, delays and other unknown events. If we incur losses in the future, our financial condition, our reputation and the market price of our Equity Share could suffer.

5. Our Company has negative cash flows from operating and investing activities in the previous Fiscals. Sustained negative cash in future could affect our growth and results of operations.

Our Company has negative cash flows from its operating and investing activities in the recent past which is mainly due to the investment made in the wholly owned subsidiary i.e. Amal Speciality Chemicals Limited. The details of such negative cash flows in the immediately preceding two financial years as per the consolidated cash flow statement are as follows:

(₹ in Lakhs)

Particulars	For the year ended March 31,	
	2022	2021
Net cash (used in)/ generated from operating activities	(148.91)	1,047.34
Net cash (used in) investing activities	(4,337.27)	(1,080.84)
Net cash from financing activities	4444.74	35.38

If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations. For further details please refer to the section titled “Financial Information” beginning on page 71 of this Letter of Offer.

6. We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business and failure to obtain, retain and renew such approvals and licenses or comply with such rules and regulations, in a timely manner or at all may adversely affect our operation.

Being a manufacturing company, we require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for a fixed period of time and need renewal from time to time. We are required to renew such permits, licenses and approvals periodically. There can be no assurance that the relevant authorities will issue such permits or approvals to our Company or that they will issue these in time. Further, these permits, licenses and approvals are subject to several conditions and our Company may not be able to continuously meet the conditions and this may lead to cancellation, revocation or suspension of relevant permits / licenses / approvals. Failure by our Company to renew, maintain or obtain the required permits, licenses or approvals or any contravention of

or non-compliance with the terms of various regulatory approvals applicable to the manufacturing facility may also require us to cease or limit production until such non-compliance is remedied to the satisfaction of relevant regulatory authorities resulting in the interruption of our Company's operations and may have a material impact on our business prospects, financial condition and cash flows. For details of pending regulatory and government approvals necessary for the objects of the Issue, please refer chapter "Government and Other Approvals" on page 123 of this Letter of Offer.

7. ***We have only one manufacturing facility and thus we are located in one geographic area i.e. Ankleshwar, Gujarat. Therefore, any localised social unrest, natural disaster or breakdown of services or any other natural disaster in and around Ankleshwar, Gujarat or any disruption in production at, or shutdown of, our manufacturing facility could have material adverse effect on our business and financial condition.***

As on the date of this Letter of Offer, we have only one manufacturing facility which is located in Ankleshwar, Gujarat. Accordingly, our current manufacturing operations is concentrated in one geographic area. Further, the manufacturing facility of our wholly owned subsidiary Amal Speciality Chemicals Limited is also located in Ankleshwar, Gujarat. Our manufacturing operations and consequently our business is dependent upon our ability to manage these manufacturing facilities, which is subject to operating risks, including those beyond our control. In the event of any disruptions at these manufacturing facilities, due to natural or man-made disasters, workforce disruptions, delay in regulatory approvals, fire, failure of machinery, lack of continued access to assured supply of electrical power and water at reasonable costs, changes in the policies of the states or local government or authorities or any significant social, political or economic disturbances or civil disruptions in and around Ankleshwar, Gujarat, our ability to manufacture our products may be adversely affected.

In addition to the loss as a result of a fire or industrial accident, any shutdown of our manufacturing facility could result in us being unable to meet with our commitments, result in modification of our business strategy, or require us to incur significant capital expenditure, which will have an adverse effect on our business, results of operation and financial condition. Disruptions in and around our manufacturing facility could delay production or require us to shut down the facility.

8. ***Volatility in prices of our raw material (including Sulphur) and our inability to procure the desired quality, quantity of our raw materials in a timely manner and at reasonable costs, or at all, may have a material adverse effect on our business, results of operations, financial condition and cash flows.***

The principal raw material in making Sulphuric acid or Oleum is Sulphur. Of late, the prices of Sulphur have been on an upward trend. The cost of raw material has increased in the Fiscal 2022 which has resulted in reduced profitability margins. Any further increase in the prices of Sulphur without corresponding increase in sales price of finished products, may adversely impact the business of our Company. We have not been able to pass on the increase in prices of Sulphur to our customers in the past and we cannot assure that we will be able to do so in future. Further, our ability to remain competitive, maintain costs and profitability depend, in part, on our ability to source and maintain a stable and sufficient supply of raw materials at acceptable prices. We depend on external suppliers for all the raw materials required and typically purchase raw materials on a purchase order basis and place such orders with them in advance on the basis of our anticipated requirements. As a result, the success of our business is significantly dependent on maintaining good relationships with our raw material suppliers. We are subject to risk of price volatility caused by various factors such as commodity market fluctuations, currency fluctuations, climatic and environmental conditions, production and transportation cost, changes in domestic as well as international government policies, and regulatory and trade sanctions. If we are not able to fully offset the increase in raw material prices with increase in the prices for our products, we will experience lower margins, which in turn may have a material adverse effect on our results of operations, financial condition, and cash flows. In the absence of such contracts we are also exposed to the risk of unavailability of certain raw materials in desired quantities and qualities, in a timely manner or at all.

Although we have not faced significant disruptions in the procurement of raw materials in the past, here

can be no assurance that in future we will be able to procure the required quantities and quality of raw materials commensurate with our requirements. There can also be no assurance that a particular supplier will continue to supply us with raw materials in the future. Any delay in supplying finished products to customers in accordance with the terms and conditions of the purchase orders, such as delivery within a specified time, as a result of delayed raw material supply, could result in the customers refusing to accept our products, which may have an adverse effect on our business and reputation. Further, we cannot assure you that we will be able to enter into new or renew our existing arrangements with suppliers on terms acceptable to us, which could have an adverse effect on our ability to source raw materials in a commercially viable and timely manner, if at all, which may impact our business and profitability.

9. We have certain contingent liabilities which had not been provided for in our balance sheet.

As of March 31, 2022, we have certain contingent liabilities reported as per Ind AS 37, details of the same are as under:

(₹ in Lakhs)

Particulars	Amount
Claims against the Company not acknowledged as debt	
Sales tax	62.86
Corporate guarantee for subsidiary company	5,100.00

In the event that any of our contingent liabilities become crystallised, our business, financial condition and results of operations may be adversely affected.

10. Some of the raw materials that we use as well as our finished products are flammable and hazardous and require expertise in handling and storage. While we take adequate care and follow all relevant safety measures, there is a risk of fire and other accidents, at our manufacturing facility. Any accidents may result in loss of property of our Company and/ or disruption in the manufacturing processes which may have a material adverse effect on our results of operations, cash flows and financial condition.

Our Company manufactures Sulphuric acid and Oleum and our downstream products are Sulphur dioxide and Sulphur trioxide. Each of these products are manufactured using Sulphur. Consequently, our raw material as well as certain of our finished goods are flammable and/ or hazardous and require expert handling and storage, failing which we may be exposed to fires or other industrial accidents. While our Company believes that it has necessary controls and processes in place, any failure of such systems, mishandling of hazardous chemicals or any adverse incident related to the use of these chemicals or otherwise during the manufacturing process or storage of products and certain raw materials, may cause industrial accidents, fire, loss of human life, damage to our and third-party property and/ or environmental damage. If any industrial accident, loss of human life or environmental damage were to occur we could be subject to significant penalties, other actionable claims and, in some instances, criminal prosecution. In addition to adversely affecting our reputation, any such accidents, may result in a loss of property of our Company and / or disruption in our manufacturing operations entirely, which may have a material adverse effect on our results of operations and financial condition.

In addition to the loss as a result of such fire or industrial accident, any shutdown of our manufacturing facility could cause inability to meet with our commitments, which will have an adverse effect on our business, results of operation and financial condition. Further, any fire or industrial accident, any shutdown of any of our manufacturing facility or any environmental damages could increase the regulatory scrutiny and result in enhanced compliance requirements including on use of materials and effluent treatment which would, amongst others, increase the cost of our operations.

We cannot assure you that despite our best efforts we will not face similar situations which may result in significant loss to our Company and/or a disruption of our manufacturing operations. The loss incurred by our Company may or may not be recoverable through insurance maintained by us. Such loss and/or disruption of our manufacturing operations may have a material adverse effect on our operations, cash flows and financial condition.

11. *Our Statutory Auditors have included certain key audit matters in our Consolidated Audited Financial Statements for the financial year ended March 31, 2022.*

The auditor's report to the Consolidated Audited Financial Statements for the year ended March 31, 2022 includes a key audit matter referring to a note in the financial statements which is as follows:

“Revenue from sale of goods to parent company

Significant revenue of the Company is generated through sale of goods to its holding company. The occurrence of such transactions and their pricing on an arm's length basis were significant areas of audit focus.”

There can be no assurance that any similar key audit matters or matters of emphasis or remarks will not form part of our financial statements for the future fiscal periods, or that such remarks will not affect our financial results in future fiscal periods. Investors should consider the remarks and observations in evaluating our financial condition, results of operations and cash flows. Any such remarks or matters of emphasis in the auditors' report and/ or CARO report on our financial statements in the future may also adversely affect the trading price of the Equity Shares.

12. *There are certain discrepancies/ errors noticed in some of forms filed with the Registrar of Companies under the provisions of Companies Act, 2013 and other applicable laws. Any penalty or action taken by any regulatory authorities in future, for non-compliance with provisions of corporate and other law could impact the reputation and financial position of the Company to that extent.*

We are subject to various compliances and are required to file various forms/ reports with ROC under the Companies Act and other statutory authorities from time to time under the applicable laws. However, there may have been instances in the past of non-compliance or non-filing of these requirements including non-filing of one form MGT-14 for special resolution passed for re-appointment of some of the directors of our Company.

We are in the process of regularization of the aforementioned non-filing and we may be subject to penalties/ fines by ROC. However, we cannot assure you that such delays or non-compliances will not occur in future and such delay in filing the forms and/ or any non-compliances may expose our Company to fines and penalties from regulatory authorities.

13. *Any unscheduled or prolonged disruption of our manufacturing operations could materially and adversely affect our business, financial condition, results of operations and cash flows.*

Any unscheduled or prolonged disruption of our manufacturing operations, including power failure, fire and unexpected mechanical failure of equipment, obsolescence, labour disputes, strikes, lock-outs, earthquakes and other natural disasters, industrial accidents or any significant social, political or economic disturbances, or infectious disease outbreaks such as the COVID-19 pandemic, could reduce our ability to manufacture our products and adversely affect sales and revenues from operations during such period. The occurrence of any such incidents could also result in a destruction of certain assets and adversely affect our results of operations. Any such disruption may interrupt our operations, which may interfere with manufacturing process, requiring us to either stop our operations or repeat activities that may involve additional time and increase our costs. In particular, due to the COVID-19 pandemic, operations at our manufacturing facility were temporary suspended in the last week of March 2020 owing to the lockdown imposed by the Government, and we subsequently resumed operations in a phased manner in last week of April 2020. Our customers rely on the timely delivery of our products and our ability to provide an uninterrupted supply of our products is critical to our business. Although we take precautions to minimise the risk of any significant operational problems at our manufacturing facilities, our customer relationships, business, financial condition, results of operations and cash flows, may be adversely affected by any disruption of operations at our manufacturing facilities, including due to any of the factors mentioned

above.

Disruptions in our manufacturing operations could delay production or require us to temporarily cease operations at our manufacturing facilities. We may be subject to manufacturing disruptions due to contraventions by us of any of the conditions of our regulatory approvals, which may require our manufacturing facilities to cease, or limit, production until the disputes concerning such approvals are resolved. As regulatory approvals are site specific, we may be unable to transfer manufacturing activities to another location immediately. Similarly, there is no assurance that those of our manufacturing facilities unaffected by an interruption will have the capacity to increase their output to manufacture products for the affected manufacturing facilities, to the extent that all outstanding orders will be fulfilled in a timely manner. In the event of prolonged interruptions in the operations of our manufacturing facilities, we may have to make alternate arrangements for supplies and products in order to meet our production requirements, which could affect our profitability.

14. Wage pressures and increases in operating costs in India may prevent us from sustaining our competitive advantage and may reduce our profit margins.

Wage costs as well, as operating costs, in India have historically been significantly lower than wage costs and operating costs in the other developed economies; and these reduced costs have been one of the sources of our competitive strengths. However, wage and operating expense increases in India may prevent us from sustaining this competitive advantage and may negatively affect our profit margins. Wages in India are increasing at a faster rate than in the developed economies, which could result in increased employee benefit expenses. We may need to continue to increase the levels of our employee compensation to remain competitive and manage attrition. Further, The Code on Wages, 2019 received the assent of the President of India on August 8, 2019 and proposes to subsume four existing laws namely, the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. The provisions of this code will be brought into force on a date to be notified by the Central Government. This may impact our wage structure and may lead to increased wage payments to employees. Additionally, the cost of operating expenses is also increasing as India continues to grow. Compensation increases manifest a hike in operational costs which may result in a material adverse effect on our business and financial condition and result of operations.

15. Stringent environmental, health and safety laws and regulations or stringent enforcement of existing environmental, health and safety laws and regulations may result in increased liabilities and increased capital expenditures.

Our operations are subject to environmental, health and safety and other regulatory and/ or statutory requirements in the jurisdictions in which we operate. We are subject to various national, state, municipal and local laws and regulations concerning environmental protection in India. Non-compliance with these laws and regulations could expose us to civil penalties, criminal sanctions and revocation of key business licenses. Environmental laws and regulations in India are becoming more stringent and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental or pollution regulations, we may be required to invest in, among other things, environmental monitoring, pollution control equipment and emissions management.

As a consequence of unanticipated regulatory or other developments, future environmental and regulatory related expenditures may vary substantially from those currently anticipated. We cannot assure you that our costs of complying with current and future environmental laws and other regulations will not adversely affect our business, results of operations, financial condition, or cash flows. In addition, we could incur substantial costs, our products could be restricted from entering certain markets and we could face other sanctions, if we were to violate or become liable under environmental laws or if our products become non-compliant with applicable regulations. Our potential exposure includes fines and civil or criminal sanctions, third-party property damage or personal injury claims and clean-up costs. The amount and timing of costs under environmental laws are difficult to predict.

16. *Our success depends largely on the senior management personnel and the Company's ability to attract and retain the senior personnel.*

Our success depends on the continued services and performance of the members of the management team and other key personnel. Competition for senior management personnel in the industry is intense and the Company may not be able to retain the existing senior management team or attract and retain new senior management talent in the future. The loss of the services of the senior managerial personnel could seriously impair the ability to continue to manage and expand the Company's business which may adversely affect the business, results of operations and financial condition.

17. *Our insurance coverage may not be adequate to protect us against all potential losses, which may have an adverse effect on our business, financial condition and results of operations.*

Our operations are subject to various risks inherent in the sectors in which we operate, such as fire, theft, robbery, earthquake, flood, acts of terrorism and other force majeure events. Our insurance cover includes, among other things, insurance under Group Personnel Accident Insurance, Industrial All Risk, etc. As of March 31, 2022, on standalone basis, the fixed assets were insured to the extent of 1.3 times of the Gross block (sum assured ₹ 24.98 crores) & the Current Assets (sum assured ₹ 1.4 crores) comprising of Inventory were insured to the extent of 0.5 times. The total insurance expense was ₹ 7 Lakhs for our registered office and the factory. These expenses were incurred towards insurance policies obtained for coverage of risk against – Group Personnel Accident, Burglary, Marine, Cash Transit, Public Liability, etc.

However, we may not have identified every risk and further may not be insured against every risk, including operational risk that may occur and the occurrence of an event that causes losses in excess of the limits specified in our policies, or losses arising from events or risks not covered by insurance policies or due to the same being inadequate, could materially harm our financial condition and future results of operations. There can be no assurance that any claims filed will be honoured fully or timely under our insurance policies. Also, our financial condition may be affected to the extent we suffer any loss or damage that is not covered by insurance or which exceeds our insurance coverage. In addition, we may not be able to renew certain of our insurance policies upon their expiration, either on commercially acceptable terms or at all.

18. *Our Promoter and promoter group will continue to exercise significant control over our business and shall be in a position to direct the corporate actions which may affect the interest of other shareholders.*

Our Promoter and Promoter Group hold 66.86% of our equity share capital. As a result, they are in a position to continue to exercise significant control over our business and all matters requiring shareholder approval, including timing and distribution of dividends, election of officers and directors, our business strategy and policies, approval of significant corporate transactions such as mergers and business combinations and sale of assets. Their control could approve or impede a merger, consolidation, takeover or other business combination involving us.

19. *We employ a substantial labour force and in case any labour disputes arise in the course of our business operations, the same could disrupt operations and adversely affect the results of operations and financial condition of our Company.*

Our manufacturing process requires skilled and unskilled labour. Any disputes between the management and labour in our Company can result in a disruption of our manufacturing activities and thereby affect the profitability of our Company.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers during employment and upon retrenchment. Under Indian law, workers

also have a right to establish trade unions. Furthermore, it may become difficult for us to maintain flexible labour policies in case cost of labour in our industry increases. Any eventualities may adversely impact our operations and financial condition. Whilst we believe that presently, we share good relationship with our employees and labour, we may experience unrest or slowdowns, increase in wage costs and employee numbers. We have not experienced any labour unrest in the past. However, there can be no assurance that we will not experience labour unrest in the future, which may delay or disrupt our operations. Any labour unrest including labour disputes, strikes and lock-outs, industrial accidents, experienced by us could directly or indirectly prevent or hinder our normal operating activities and, if not resolved in a timely manner, could lead to disruptions in our operations. In the event of any prolonged delay or disruption our business, results of operations and financial condition could be materially and adversely affected.

20. Our Company is a party to certain litigations, the outcome of which could adversely affect our business operations and financial condition.

Our Company is party to certain legal proceedings which may be incidental to our business and operations. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. Any adverse decision may render us liable to liabilities/penalties and may adversely affect our business and results of operations. A classification of these legal and other proceedings are given in the following table:

Sr. No.	Outstanding Litigations	Number of Matters	Financial implications to the extent quantifiable (₹ in Lakhs)
1.	Proceedings involving moral turpitude or criminal liability on the part of our Company	Nil	Not Applicable
2.	Litigation involving material violations of statutory regulations by our Company	Nil	Not Applicable
3.	Proceedings involving economic offences initiated against our Company	Nil	Not Applicable
4.	Litigation involving an amount above the Materiality Threshold	2	62.86

The amounts mentioned above may be subject to additional interest/ penalties being levied by the concerned authorities for delay in making payment or otherwise. The amount of interest/ penalties that may be levied is unascertainable as on date of this Letter of Offer. For further details regarding these legal proceedings, please refer to chapter titled “*Outstanding Litigations and Defaults*” on page 121 of this Letter of Offer.

21. The specialty chemicals industry is capital intensive, and we may need to seek additional financing in the future to support our growth strategies. Any failure to raise additional financing could have an adverse effect on our business, results of operations, financial condition and cash flows.

The specialty chemicals industry is capital intensive. We require a substantial amount of capital and will continue to incur significant expenditure in maintaining and growing our existing infrastructure, purchase equipment and develop and implement new technologies in our new and existing manufacturing facilities. In Fiscals 2022 and 2021, and the six months ended September 30, 2022, we incurred capital expenditures of ₹ 6602.22 Lakhs, ₹ 805.43 Lakhs and ₹ 1236.82 Lakhs, respectively, directly or through our wholly owned subsidiary Amal Speciality Chemicals Limited. We cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. If our internally generated capital resources and available credit facilities are insufficient to finance our capital expenditure and growth plans, we may, in the future, have to seek additional financing from third parties, including banks, venture capital funds, joint-venture partners and other strategic investors. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions and the effect of events such as the COVID-19 pandemic, credit availability from banks, investor confidence, the continued success of our operations and other laws

that are conducive to our raising capital in this manner. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to obtain such financing in a timely manner, at a reasonable cost and on acceptable terms or at all, we may be forced to delay our expansion plans, downsize or abandon such plans, which may materially and adversely affect our business, financial condition and results of operations, as well as our future prospects.

- 22. *Our manufacturing facility is located on leasehold premises and the Registered Office has been taken from our Holding Company i.e. Atul Limited on permission to use. If the Lease Deed or permission to use are terminated or not renewed on terms acceptable to us, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.***

Our manufacturing facility at GIDC Ankleshwar, Gujarat and is situated on parcel of land that we have taken on leasehold basis from third party i.e. GIDC for a period of 99 years commencing from 1979. Further, our Registered office has been given to us by our Holding Company i.e. Atul Limited, to use and occupy the same on mutual understanding. We may not be able to renew or extend these agreement/ arrangements at commercially acceptable terms, or at all. Further, we may be required to re-negotiate rent or other terms and conditions of such agreement/ arrangement. We may also be required to vacate the said premises at short notice and we may not be able to identify and obtain possession of an alternate location, in a short period of time. Occurrence of any of the above events may have a material adverse effect on our business, results of operations, financial condition, and cash flows. Further, any adverse impact on the ownership rights of our lessor/ owner may impede our effective future operations. Further, our lease agreement shall expire in due course and in case of non-renewal of our lease or if such agreement is renewed on unfavorable terms and conditions, we may be forced to procure alternative space. We may also face the risk of being evicted in the event that our lessor allege a breach on our part of any terms under the lease deed and there is no assurance that we will be able to identify suitable locations to re-locate our operations.

- 23. *We are dependent on third party transportation providers for the supply of raw materials and delivery of our products.***

As a manufacturing business, our success depends on the smooth supply and transportation of the raw materials and finished products to/ from our manufacturing facility from/ to our suppliers and customers. We transport our raw materials and our finished products by road. Our suppliers undertake the delivery of our raw materials and we rely on third party logistic companies and freight forwarders to deliver our products with whom we have contractual relationships. Transportation strikes may also have an adverse effect on supplies and deliveries to and from our customers and suppliers. In addition, raw materials and products maybe lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and results of operation negatively. A failure to maintain a continuous supply of raw materials or to deliver our products to our customers in an efficient and reliable manner could have a material and adverse effect on our business, financial condition and results of operations. Any recompense received from insurers or third party transportation providers may be insufficient to cover the cost of any delays and will not repair damage to our relationships with our affected customers. We may also be affected by an increase in fuel costs, as it will have a corresponding impact on freight charges levied by our third party transportation providers. This could require us to expend considerable resources in addressing our distribution requirements, including by way of absorbing these excess freight charges to maintain our selling price, which could adversely affect our results of operations, or passing these charges on to our customers, which could adversely affect demand for our products.

- 24. *Intellectual property rights are important to our business and we may be unable to protect them from being infringed by others which may adversely affect our business value, financial condition and results of operations.***

As on the date of this Letter of Offer, we have 1 trademark  registered under the provisions of the

Trade Marks Act, 1999. We cannot assure that third parties will not infringe on our intellectual property, thereby causing damage to our business prospects, reputation and goodwill. Our efforts to protect our intellectual property may not be adequate and any third-party claim on any of our unprotected brand may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly, and a favourable outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property.

25. *Significant disruptions of information technology systems or breaches of data security could adversely affect our business.*

Our business has substantial dependence upon information technology systems, including internet-based systems, to support business processes. We also utilise an enterprise resource planning solution which covers production, finance, sales, logistics, purchase and inventory, across our manufacturing facility and offices. The complexity of our computer systems may make them potentially vulnerable to breakdown, malicious intrusion and computer viruses. We cannot assure you that we will not encounter disruptions to our information technology systems including the failure of servers and backup systems in the future and any such disruption may result in the loss of key information or disruption of our business processes, which could adversely affect our business and results of operations. In addition, our systems are potentially vulnerable to data security breaches, whether by employees or others that may expose sensitive data to unauthorised persons. Such data security breaches could lead to the loss of trade secrets or other intellectual property or could lead to the public exposure of personal information (including sensitive personal information) of our employees, customers and others. Any such security breaches could have an adverse effect on our business and reputation.

26. *Any adverse change in regulatory requirements governing our products and the products of our customers, may adversely impact our business, prospects, results of operations and financial condition.*

Regulatory requirements with respect to our products and the products of our customers are subject to change. An adverse change in the laws governing the manufacturing of our products and their usage by our customers, including the development of licensing requirements and technical standards and specifications or the imposition of onerous requirements, may have an adverse impact on our operations. We may be required to alter our manufacturing and/or distribution process and target markets and incur capital expenditure to achieve compliance with such new regulatory requirements applicable to us and our customers. We cannot assure you that we will be able to comply with such changes or additional regulatory requirements.

If we fail to comply with new statutory or regulatory requirements, there could be a delay in the submission or grant of approval for manufacturing and marketing new products or we may be required to withdraw existing products from the market. Further, changes in regulatory requirements, may result in our customers being unable to utilise our products for manufacturing their respective products. There is an inherent risk that we may inadvertently fail to comply with such regulations, which could lead to enforced shutdowns and other sanctions imposed by the relevant authorities, as well as the withholding or delay in receipt of regulatory approvals for our new products, which may adversely impact our business, prospects, results of operations and financial condition.

27. *The objects for which we propose to utilise Issue proceeds are neither appraised by any Bank or Financial Institution nor any independent agency is appointed to monitor the deployment of proceeds. Our management will have the flexibility in applying the issue proceeds.*

The fund requirements and proposed deployment are based on internal estimates of our management and have not been appraised by any Bank or Financial Institution. Shareholders/ investors shall rely on management's ability and experience to draw correct estimates. Non-appraisal of estimates by external agencies such as Banks or Financial Institutions makes such estimates susceptible to change any time in

future.

Further, as per SEBI ICDR Regulations, appointment of monitoring agency is required only for Issue size above ₹ 10,000 Lakhs. Since, our issue size is below this amount, we have not appointed a monitoring agency to monitor the utilisation of Issue proceeds.

We intend to use the Issue proceeds in the manner as described in the section titled “*Objects of the Issue*” on page 44 of this Letter of Offer. We cannot assure you that the issue proceeds will be utilised in conformity with the cost or schedule of implementation as described under the said chapter. Our funding requirements for the objects and deployment schedule are based on current conditions and are subject to change in light of external factors which may not be in our control. This may also include rescheduling the proposed utilisation of issue proceeds at the discretion of our management. Our Company may make necessary changes to such utilisation in conformity with the provisions of the Companies Act and SEBI ICDR Regulations in relation to the change in the objects of the issue. Accordingly, shareholders /investors in the offer will need to rely on our management’s judgment with respect to the use of proceeds. If we are unable to enter into arrangements for utilisation of issue proceeds as expected in a timely manner, we may not be able to derive expected benefits from the proceeds of the issue and our business and financial results may suffer.

28. *Our ability to pay dividends will depend upon earnings, financial condition, cash flows, working capital requirements, lender’s approvals and other factors.*

Our Company has not declared any dividend for the Fiscals 2021 and 2022. The amount of our future dividend payments, if any, will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditures, lenders’ approvals and other factors. There can be no assurance that we shall have distributable profits or that we will declare dividends in the future. Additionally, the terms and conditions of any financing we obtain in the future, may include restrictive covenants which may also affect some of the rights of our shareholders, including the payment of the dividend.

29. *A significant portion of the Issue proceeds will be utilised by our Company to invest in wholly owned subsidiary for part- repayment or prepayment of term loans availed by our subsidiary company named Amal Speciality Chemicals Limited which is amounting to ₹ 3,700 Lakhs.*

The main object of the Issue is to invest in wholly owned subsidiary named Amal Speciality Chemicals Limited to partly repay or pre pay the term loans availed by our wholly owned subsidiary named Amal Speciality Chemicals Limited amounting to ₹ 3,700 Lakhs. For further details, please see the chapter titled “*Objects of the Issue*” beginning on page 44 of this Letter of Offer. The amount of Net Proceeds utilized towards such investment in our wholly owned subsidiary will not be available for use in our business for any other purposes.

EXTERNAL RISK FACTORS

30. *Deterioration in global economic conditions could have a material adverse impact on our sales and results of operations.*

The chemicals industry and the demand for chemicals is influenced by general economic conditions including among other things, rates of economic growth, availability of credit, disposable income of consumers, interest rates, environmental and tax policies, safety regulations, freight rates and fuel and commodity prices. As Sulphuric acid caters directly to phosphate fertilizers, explosives, other acids, dyes, wood preservatives and automobile batteries, negative trends in any of these sectors impacting the regions where we operate would materially and adversely affect our business, financial condition and results of operations.

The Indian chemical industry is affected materially by the general economic conditions in India and around the world. Muted industrial growth as a result of continuing high levels of inflation and interest rates

continues to pose risks to overall growth in this market. A continuation of negative economic trends or further deterioration in key economic metrics such as the growth rate, interest rates and inflation could materially and adversely affect our sales in India and results of operations.

Although economic conditions are different in each country, investors' reactions to economic developments in one country can have adverse effects on the securities of companies and the economy as a whole. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India.

In the event the growth rate / recovery of global economy is slower than expected, or if there is any significant financial disruption, this could have a material adverse effect on our cost of funding, portfolio of financing loans, business, prospects, financial condition, results of operations and the trading price of our Securities.

31. *Financial instability in Indian and Global financial markets could adversely affect our Company's results of operations and financial condition.*

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America, Europe or China, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares.

32. *Political instability or significant changes in the economic liberalisation and deregulation policies of the Government or in the government of the states where we operate could disrupt its business.*

The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy. Our businesses, and the market price and liquidity of its securities may be affected by changes in exchange rates and controls, interest rates, government policies, taxation, social and ethnic instability and other political and economic developments in or affecting India. In recent years, India has been following a course of economic liberalisation and our business could be significantly influenced by economic policies followed by the Government.

However, there can be no assurance that such policies will continue in the future. The rate of economic liberalisation could change, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well.

33. *Natural disasters and other disruptions could adversely affect the Indian economy and could cause our business and operations to suffer and the trading price of our Equity Shares to decrease.*

Our operations may be damaged or disrupted as a result of natural disasters such as earthquakes, floods, heavy rainfall, epidemics, tsunamis and cyclones and other events such as political instability, terrorism or military conflict, protests, riots and labour unrest. Such events may lead to the disruption of information systems and telecommunication services for sustained periods. They also may make it difficult or impossible for employees to reach our business locations which may affect our manufacturing processes. Damage or destruction that interrupts our production could adversely affect our reputation, our relationships with our customers, our senior management team's ability to administer and supervise our business or it may cause us to incur substantial additional expenditure to repair or replace damaged equipment or rebuild parts of our infrastructure. We may also be liable to our customers for disruption in

supply resulting from such damage or destruction. Our insurance coverage for such liability may not be sufficient. Any of the above factors may adversely affect our business, our financial results and the price of our Equity Shares.

RISKS RELATING TO THE ISSUE

- 34. *Any future issuance of equity shares by our Company or sale of our equity shares by any of our Company's significant shareholders may affect the trading price of our equity shares.***

Any future issuance of Equity Shares by us could dilute your shareholding. Any such future issuance of our Equity Shares or sale of our Equity Shares by any of our significant shareholders may also affect the trading price of our Equity Shares and could impact our ability to raise capital through an offering of our securities. We cannot assure you that we will not issue further equity shares or that the shareholders will not dispose of, pledge, or otherwise encumber their equity shares. In addition, any perception by investors that such issuances or sale might occur could also affect the trading price of our equity shares.

- 35. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee(s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee(s) prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

- 36. *No market for the Right Entitlements may develop and the price of the Right Entitlements may be volatile.***

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchange during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchange, the trading of Rights Equity Shares may not track the trading of Equity Shares. The trading price of the Rights Entitlements may be subject to greater price fluctuations than that of the Equity Shares.

- 37. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholders") may lapse in case they fail to furnish the details of their demat account to the Registrar.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has been introduced by SEBI in 2020. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise

caution, carefully follow the requirements as stated in the SEBI Rights Issue Circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. Further, while in accordance with the SEBI Rights Issue Circulars, the credit of Rights Entitlements shall be made into the demat accounts of the Eligible Equity Shareholders as on the Record Date, such Eligible Equity Shareholders shall be participating in the Issue only in accordance with the applicable laws in their respective jurisdictions. SEBI, vide circular dated May 19, 2022, has changed the minimum time period between closure of trading of Rights Entitlements on the stock exchange platform and closure of the rights issue to at least three working days. For details, see “*Terms of the Issue*” beginning on page 132.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with SEBI Rights Issue Circulars, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialised form only and the physical shareholders will not have the option of getting the allotment of Rights Equity Shares in physical form. Accordingly, the Rights Entitlements of the physical shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The physical shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the physical shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse.

Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialised form (except in case of transmission or transposition of Equity Shares).

38. *Our Company will not distribute the Issue Materials to certain overseas Shareholders who have not provided an address in India for service of documents.*

We will dispatch Abridged Letter of Offer, Application Form and Rights Entitlement Letter (the “Issue Materials”) to the shareholders who have provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. While we have requested all the shareholders to provide an address in India for the purposes of distribution of Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act and may subject us to fines or penalties.

39. *Applicants to the Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant’s demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition or other events affecting the Applicant’s decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market Price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. In that case, the shareholder will suffer an immediate unrealised loss as a result. We may complete the Allotment even if such events may limit the Applicants’ ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

40. *We cannot guarantee that the Equity Shares issued under this Issue will be listed on the Stock Exchange in a timely manner, if at all.*

In accordance with Indian law and practice, after our Board or committee passes the resolution to allot the Equity Shares but prior to crediting such Equity Shares into the Depository Participant accounts of the investors, we are required to apply to the Stock Exchange for final approval for listing and trading of the Equity Shares. There could be a failure or delay in obtaining these approvals from the Stock Exchange, which in turn could delay the listing of the Equity Shares on the Stock Exchange. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period. Any failure or delay in obtaining these approvals would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, may not be indicative of the prices at which the Equity Shares will trade in the future.

41. *Investors may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares and Equity Shares Rights Entitlements.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealised capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which our Equity Shares are sold. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

The Finance Act, 2019 has clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments came into effect from July 1, 2020.

Further, the Finance Act, 2022, which received the assent of the President of India on March 30, 2022, has, among other things, provided a number of amendments to the direct and indirect tax regime. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations could adversely affect our business. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

Global Industry Outlook

Global Sulphuric acid market size is growing at a CAGR of around 8.50% from 2022 and is expected to be around USD 30 billion by 2030 from USD 14 billion in 2021.

On the basis of Geography, the Global Sulphuric Acid Market is classified into North America, Europe, Asia Pacific, and the Rest of the world. The Asia-Pacific region leads the Global Sulphuric Acid Market, in terms of both, value and volume. China is the largest market for Sulphuric acid in the Asia-Pacific region

The growing chemical industry, easy availability of raw materials, and increasing developmental strategies such as setting up production facilities to meet the growing demand for Sulphuric acid are the key growth drivers for the Sulphuric Acid Market in this region.

Indian Chemical Industry Outlook

Globally, India is the third largest consumer of polymers, fourth-largest producer of agrochemicals and sixth-largest producer of chemicals. The Indian chemicals industry makes up 3.4% of the global chemicals industry. In 2019, the Indian chemicals market stood at US\$ 178 billion and is forecasted to reach US\$ 304 billion by 2025.

(Source: - <https://www.ibef.org/industry/chemical-industry-india>)

The chemical industry is a knowledge intensive as well as capital intensive industry. It is an integral constituent of the growing Indian industry. It includes basic chemicals and its products, petrochemicals, fertilizers, paints, varnishes, gases, soaps, perfumes, toiletry, and pharmaceuticals. The diversification within the chemical industry is larger and covers more than eighty thousand commercial products.

Sulphuric acid is a colourless, highly corrosive diprotic acid finding various applications in the chemical industry due to its extraordinary oxidizing and dehydrating properties. The surge in the consumption of Sulphuric acid in India is augmented by the overall growth of the Indian chemical industry wherein it is widely utilised for synthesizing myriad derivatives. Sulphuric acid is primarily being used as a feedstock for the synthesis of nitrogenous and phosphatic fertilizers against the backdrop of its abundant demand from the fertilizer industry.

STRONG GROWTH IN SPECIALTY CHEMICALS

The Indian specialty chemicals sector is expected to increase at a CAGR of 12.4%, from US\$ 32 billion in 2019 to an estimated US\$ 64 billion by 2025. Also, ICRA’s ratings indicate improved exports and a positive outlook for agrochemicals and surfactants.

Chemicals market in India

India is the preferred destination for chemical manufacturing. It is mainly due to the various initiatives taken by the Government of India such as 'Make In India' initiative, Atmanirbhar Bharat, various other incentives schemes and competitive tax rates. The macro perspective on India supports the country's long term growth story, however short term outlook is challenging.

Chemicals industry in India covers >80,000 commercial products. India has one of the largest global chemical markets and is ranked sixth in the world and fourth in Asia in terms of global sale of chemicals. India accounts for 2.5% of the world's global chemical sales. The industry is expected to reach US\$ 304 billion by 2025 at a CAGR of 9.3%, driven by rising demand in the end-user segments for specialty chemicals and petrochemicals segment. Specialty chemicals constitute for 22% of the total chemicals and petrochemicals market in India. India is expected to double its specialty chemicals market share in the next five years. Specialty chemical companies are seeking at import substitutions while exploring export opportunities to accelerate their business.

(Source: - <https://www.ibef.org/industry/chemical-industry-india>)

The Indian dyes and pigments market was projected to reach US\$ 63 billion by 2022, accounting for about 16% of the global dye production. The petrochemical demand is expected to record a 7.5% CAGR between 2019 and 2023, with the demand for polymers growing at 8%. India is the third largest polymer consumer in the world and is expected to consume 60 million tonnes by 2040. Chemicals and Chemical Products gross bank credit grew at 15.6% in May 2022.

The agrochemicals market in India is expected to register 8.6% CAGR to reach US\$ 7.4 billion between 2021 and 2026. In'ia's market expected to increase at a CAGR of 12.4% to US\$ 64 billion by 2025. This gain would be driven by a healthy demand growth (CAGR of 10-20%) in the export/end-user industries.

The contribution of the chemical industry in country's GDP is around 6%. In'ia's Sulphuric Acid market is growing at a healthy CAGR of 6% and is forecasted to reach at 24.4 million tonnes in FY 2030 against 14.2 million tonnes in FY 2021.

The fertilizers segment is estimated to lead the Sulphuric Acid Market during the forecast period. The population across the world is increasing, which leads to a rise in demand for a better-quality food crops. With the decrease in hectares of arable land due to rapid industrialisation and urbanisation, fertilizers are used by farmers to increase the crop yield. Therefore, increasing the use of Sulphuric acid in fertilizer manufacturing is expected to drive the fertilizers segment of the Sulphuric Acid Market during the forecast period. Sulphuric acid is mainly used in the production of phosphoric acid, which is used to manufacture fertilizers such as triple superphosphate and mono and diammonium phosphates. Fertilizers, especially phosphate fertilizers produced

from wet-process phosphoric acid, are a major end-use industry of the Sulphuric acid market. Based on the application, the fertilizer segment consumes around 60% of the Sulphuric acid manufactured in India.

It is also widely consumed in synthesis of speciality chemicals like nitric acid, hydrofluoric acid, dyes, pigments, and titanium dioxide and others. Sulphuric acid is used to manufacture rayon. Sulphuric acid serves as an electrolyte in lead-acid storage batteries. Sulphuric acid is used in the pulp and paper industry, often for use in chlorine dioxide generation. Sulphuric acid is used in many other chemical processes and various wastewater and pH control applications.

Chemical trends in India

Government Initiatives in the Chemical Industry:

- Under the Union Budget 2022-23 the government allocated ₹ 209 crores (US\$ 27.43 million) to the Department of Chemicals and Petrochemicals.
- PLI schemes have been introduced to promote Bulk Drug Parks, with a budget of ₹ 1,629 crores (US\$ 213.81 million).
- The Government of India is considering launching a production linked incentive (PLI) scheme in the chemical sector to boost domestic manufacturing and exports.
- A 2034 vision for the chemicals and petrochemicals sector has been set up by the government to explore opportunities to improve domestic production, reduce imports and attract investments in the sector. The government plans to implement production-link incentive system with 10-20% output incentives for the agrochemical sector; to create an end-to-end manufacturing ecosystem through the growth of clusters.
- In October 2020, the government urged players in the agrochemicals industry to come out with new molecules of global standards for the farmers' benefit, while Crop Life India, the industry body, pitched for stable policies and regulatory regimes to boost growth in the sector.
- 100% FDI is allowed under the automatic route in the chemicals sector with few exceptions that include hazardous chemicals. FDI inflows in the chemicals sector (other than fertilisers) reached US\$ 20.41 billion between April 2000-June 2022.
- The government has proposed several incentives for setting up a sourcing or manufacturing platform within an Indian SEZ:

- Effective April 1, 2020, 100% Income Tax exemption on export income for SEZ units for the first five years, 50% for the next five years thereafter and 50% of the ploughed back export profit for next five years.
- Single window clearance for central and state-level approvals.
- Duty free import/domestic procurement of goods for development, operation and maintenance of SEZ units.
- In December 2020, the PCPIR policy is being completely redesigned. Under the new PCPIR Policy 2020-35, a combined investment of ₹ 10 Lakh Crore (US\$ 142 billion) is targeted by 2025, ₹ 15 Lakh Crore (US\$ 213 billion) by 2030 and ₹ 20 Lakh Crore (US\$ 284 billion) by 2035 in all PCPIRs across the country. The four PCPIRs are expected to generate employment for ~33.83 Lakh people. ~3.50 Lakh persons have been employed in direct and indirect activities related to PCPIRs by the end of 2020.

Evolution of the Indian Chemical Sector:

The emergence of the chemical industry as an independent branch is associated with the industrial revolution. The first Sulphuric acid plants were built in Great Britain in 1740 (Richmond), France in 1766 (Rouen), Russia in 1805 (Moscow Province), and Germany in 1810 (near Leipzig).

The Indian fertilizer industry started with the production of Single Superphosphate (SSP), a well-known Sulphur fertilizer, in 1906 at Ranipet, near Chennai.

Double Conversion - Double Absorption (DCDA) process technology is presently the widely used for production of Sulphuric acid. Single Conversion – Single Absorption (SCSA) process is another popular production method for manufacturing Sulphuric acid.

Based on raw material type, the market is bifurcated into Elemental Sulphur, Base Metal Smelters, Pyrite Ore, and Others. Due to the high supply of elemental Sulphur on the market in 2015, the segment based on raw materials led the Sulphuric acid market. In comparison to base metal smelting and roasting pyrite ore, which require businesses / factories to undertake stringent methods to clean the generated SO₂ gases before releasing them into the atmosphere, the generation of Sulphuric acid via Sulphur is less polluting. Owing to extensive demand in the country, more than 90% Sulphur produced in the domestic market is directed to manufacture Sulphuric acid on the back of high yield and affordability,

Growth Factors

- The rapid acceptance of Sulphuric acid for fertilizers with improving the yield of the crops with enhanced the quality and quantity of the produced crops.
- Increased urbanisation with increased research and development with Sulphuric acid and growing industrialisation drive the growth of the market.
- Increased demands for the crops with improved quality with increased nutrients in the vegetable and fulfilling the demands of the consumers, increasing the product in agricultures using fertilizers.
- The rapid acceptance of electric vehicles across the regions and the development of the automobile industry with increased demands from customers expanded the Sulphuric acid market growth.
- The electronic grade of Sulphuric acid is used in semiconductor and PCB cleaning and etching, The use of Sulphuric acid in semiconductors is substantially increasing. Currently, the ongoing trend of the autonomous vehicle to change the engine from conventional to electric has increased the demand of semiconductor in a rapid pace, which has drastically increased the demand of cleaning chemicals for semiconductor. This factor leads to an increase in the demand for Sulphuric acid globally.

Challenges specific to Sulphuric Industry:

- Increased Cost – Volatility in the Sulphur price leads to increase in cost. There is also no direct relation between Sulphur price and Sulphuric Acid price leading to reduction in margins.
- Availability of other chemicals for processing the product and producing of the products in chemical industry or other industries with adapting new chemicals can challenge the market growth of Sulphuric acid.
- Generation of sulphuric as by-product in copper smelter process, sold at very low prices, affects Sulphuric produces competitiveness, producing through Sulphur route.

Opportunities specific to Sulphuric Industry:

- The rapid acceptance of sulfuric acid for fertilizers with improving the yield of the crops with enhanced the quality and quantity of the produced crops.
- Geographical shift from developed countries to India.
- Government initiatives in the chemical industry will contribute to increase in the demand in long run.
- Utilisation of Sulphuric acid in treatment of waste water - Sulphuric acid plays a major role in waste water treatment. It is the process developed with increased concern of environmental issues. Sulphuric acid chemical balances the pH level and normalise the chemical by adjusting with the Sulphuric acid and producing neutral chemical. Wastewater treatment such as prevention of odour of water, helps to destroy the bacteria in water which may cause several disorders. Separation of the water and waste solid material which is sludge using Sulphuric acid.

Overview

Our Company was incorporated in the year 1974 promoted by Piramal group. We had taken leasehold land on long-term basis from GIDC at Ankleshwar, Gujarat in the year 1979 to establish our manufacturing facility. The controlling interest of our Company was sold to Atul Limited in FY 1985-86. Further, we have incorporated a wholly-owned subsidiary Amal Speciality Chemicals Limited on October 12, 2020.

We work under the guidance of Mr. Sunil Lalbhai, Chairman and Mr. Rajeev Kumar, Managing Director who possess extensive experience in the chemical industry. They are instrumental in evolving our business operations and growth. Subject to the overall supervision and control of our Board of Directors, our business operations are managed by a team of experienced senior management personnel.

We currently manufacture bulk chemicals such as Sulphuric acid and oleum along with their downstream products such as Sulphur dioxide and Sulphur trioxide. These products are commonly known as Sulphuric acid equivalent products. Steam is generated in large quantities during the manufacturing processes of these chemicals which is further used for captive consumption and surplus is sold to third parties. These chemicals find their use in several industries like dyes, fertilizers, personal care, petrochemical, pharmaceutical, textile, etc. These chemicals are generally sold to our customers who are in close proximity to our manufacturing facility. Our business operations and products cater to the business-to-business segment. We are registered as a small enterprise under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act).

In the past, our Company had been declared as sick company by the Board of Industrial Reconstruction (“BIFR”), New Delhi vide its order (Ref. No. 151/2005) dated July 31, 2006 pursuant to a reference made under section 15(1) of the Sick Industrial Companies (Special Provisions) Act, 1985 (“SICA”). Subsequently, Draft Rehabilitation Scheme (“DRS”) submitted by our Company was sanctioned by BIFR vide its order dated July 16, 2009 as SS-09. The said scheme was subsequently modified by BIFR vide its order dated June 18, 2010 as MS-10 and again in the year 2013 vide BIFR’s Order dated July 17, 2013 as MS-13. The net worth of our Company turned positive in Fiscal 2019.

Our revenues from operations for the nine months ended December 31, 2022, Fiscals 2022 and 2021 were ₹ 4,396.73 Lakhs, ₹ 4,348.01 Lakhs and ₹ 3,042.04 Lakhs respectively. Our EBITDA for the nine months ended December 31, 2022, Fiscals 2022 and 2021 were ₹ (520.31) Lakhs, ₹ 426.87 Lakhs and ₹ 1,250.06 Lakhs respectively. Our profit/ (loss) after tax for the nine months ended December 31, 2022, Fiscals 2022 and 2021 were ₹ (1,215.87) Lakhs, ₹ 110.94 Lakhs and ₹ 879.75 Lakhs respectively. For further details, please refer to the section titled “Financial Information” on page 71 of this Letter of Offer.

We contributed ₹ 26.25 Lakhs towards corporate social responsibility in the Fiscal 2022 which was used for improving infrastructure of five schools and providing relief to COVID-19 patients in four hospitals. The initiatives were implemented by Atul Foundation.

Products

We are engaged in the manufacturing of bulk chemicals such as Sulphuric Acid and Oleum and their downstream products such as Sulphur di-oxide and Sulphur trioxide. Steam is also produced in our manufacturing process which is used for captive consumption and revenue generation by direct sale to third parties.

Sulphuric Acid

Sulphuric Acid is a colorless, highly corrosive diprotic acid composed of the elements Sulphur, oxygen and hydrogen, with the molecular formula H_2SO_4 . Sulphuric Acid finds various applications in the chemical industry due to its extraordinary oxidizing and dehydrating properties. It is primarily being used as a feedstock for the synthesis of nitrogenous and phosphatic fertilizers against the backdrop of its abundant demand from the fertilizer industry.

The main use of Sulphuric acid is in the production of phosphate fertilizers. It is used to manufacture explosives, other acids, dyes, glue, wood preservatives, and automobile batteries. It is used in the purification of petroleum, the pickling of metal, copper smelting, electroplating, metal work, and the production of rayon and film.

Sulphur Dioxide and Sulphur Trioxide

The oxides of Sulphur are inorganic compounds made up entirely of Sulphur and oxygen atoms. Sulphur Dioxide and trioxide are downstream products which are formed during the production process of Sulphuric Acid and Oleum upon oxidization of Sulphur.

Sulphur Dioxide

Sulphur dioxide is a colourless, acidic and poisonous gas with a pungent and suffocating smell. It is acidic in nature and can be easily liquefied. It also decomposes carbonates and bicarbonates evolving carbon dioxide gas. Sulphur dioxide is used in manufacturing of anti-oxidants and is used as bleaching agent and food preservatives.

Sulphur Trioxide

Sulphur trioxide is often formed when Sulphur dioxide is oxidised. This chemical compound can occur in different forms more widely in a white crystalline solid. When it is in liquid form it is colourless. It is a highly reactive substance and tends to react violently with water. It acts as a strong oxidising agent. Sulphur trioxide is used in manufacturing of anti-oxidants and used as a sulphating agent in the chemical industry.

Oleum

Oleum, or fuming Sulphuric acid, is a term referring to solutions of various compositions of sulfur trioxide in Sulphuric acid, or sometimes more specifically to disulphuric acid (also known as pyrosulphuric acid). Oleum is a harsh reagent, and is highly corrosive.

Oleum is produced in the contact process, where sulphur is oxidized to sulphur trioxide which is subsequently dissolved in concentrated Sulphuric acid. Sulphuric acid itself is regenerated by dilution of part of the oleum.

Revenue Break-up

Our standalone revenue break-up for the nine months ending December 31, 2022 and financial years ending March 31, 2022 and 2021 is as follows:

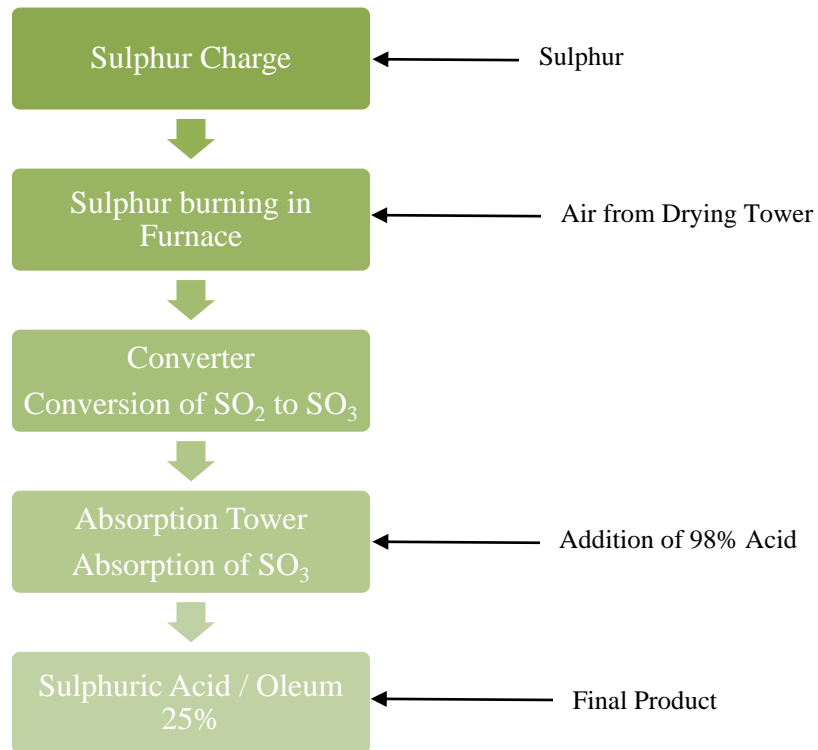

(₹ in Lakhs)

Particulars	Six Months ended December 31, 2022	Fiscal 2022	Fiscal 2021
Sulphuric Acid	724.69	1307.13	852.58

Sulphur Dioxide	693.41	840.02	560.43
Sulphur Trioxide	891.83	1597.10	1175.77
Oleum	303.88	239.23	129.52

Others	68.32	23.49	8.86
Total	3,048.22	4,348.01	3,042.04

Manufacturing Process

Sulphuric Acid

Sulphur is melted in Sulphur pit. Molten Sulphur is burnt in Sulphur furnace in the presence of air. Sulphur dioxide (SO₂) gas goes to the converter where it is converted in Sulphur trioxide (SO₃) in presence of vanadium catalyst. SO₃ is then absorbed in absorption tower where 98% Sulphuric acid is circulated. This gives Sulphuric Acid or Oleum 25%.

Strengths

Dedicated Manufacturing Facility

We are a dedicated manufacturer of Sulphuric acid and oleum. We have a legacy of more than four decades in the specialty chemicals industry where we have produced Sulphuric acid and oleum and the downstream

products like Sulphur dioxide and Sulphur trioxide. These products find their use in several industries like dyes, fertilizers, personal care, petrochemical, pharmaceutical, textile, etc. Being a dedicated facility allows us to keep our focus on the quality of our products.

Experienced Leadership and Management Team

We work under the guidance of Mr. Sunil Lalbhai, Chairman and Mr. Rajeev Kumar, Managing Director who possess extensive experience in the chemical industry. Our Company is professionally managed by strong management team having diverse experience with continuing long-term association with the Company. Their industry experience has enabled us to manage our operations efficiently and enhance our manufacturing capabilities. For various strategic initiatives, the Company is advised by Board members. We will continue to leverage on the experience of our management team and their understanding of the chemicals industry.

Strategically located manufacturing facility with proximity to our primary customers

We operate from our manufacturing facility located at Ankleshwar, Gujarat. Our facility is located in close proximity to our primary customer, Atul Limited. Ankleshwar, Panoli and Dahej GIDC are one of the largest chemicals belts in Gujarat, which gives us a competitive edge in terms of supplying to customers locally thereby saving on transportation cost.

Strategies

Cost optimization and improving operational efficiency

We intend to optimise the product mix and are evaluating a few downstream products of Sulphuric acid to be added to our product portfolio. We believe that this will allow us to benefit from economies of scale and improve operational efficiency and profit margins.

Reducing the manufacturing cost

Power cost is one of the major contributors to the cost of manufacturing. We intend to optimize the utility cost by exploring energy conservation measures which in turn will help us to reduce the manufacturing costs.

Expansion through our wholly owned subsidiary

We have incorporated our wholly owned subsidiary (“WOS”) Amal Speciality Chemicals Limited wherein we have commissioned a manufacturing facility with an installed capacity of 300 TPD of Sulphuric acid equivalent products. This facility will be zero liquid discharge facility. We strive to increase our revenues through this WOS.

Plant & Machinery

Our manufacturing facility is equipped with various machinery and equipment for the purpose of effectively carrying out our manufacturing processes.

Our Major Customers

Our major customer, Atul Limited has contributed 72.24% and 77.93% of the total revenue from operations for the Fiscals 2022 and 2021.

Utilities

Our manufacturing facility receives power supply from Dakshin Gujarat Vij Company Ltd. (DGVCL). The water requirement is met by supply from Gujarat Industrial Development Corporation and third-party water suppliers on need basis.

**INDEPENDENT AUDITOR'S REVIEW REPORT ON REVIEW OF INTERIM CONSOLIDATED
FINANCIAL RESULTS**

**TO THE BOARD OF DIRECTORS OF
AMAL LIMITED**

1. We have reviewed the accompanying Statement of Consolidated Unaudited Financial Results of **AMAL LIMITED** ("the Parent") and its subsidiary (the Parent and its subsidiary together referred to as "the Group") for the quarter and nine months ended December 31, 2022 ("the Statement"), being submitted by the Parent pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.
2. This Statement, which is the responsibility of the Parent's Management and approved by the Parent's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India (ICAI). A review of interim financial information consists of making inquiries, primarily of Parent's personnel responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

4. The Statement includes the results of a subsidiary viz. Amal Specialty Chemicals Limited.
5. Based on our review conducted and procedures performed as stated in paragraph 3 above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

The other information comprises the information included in the Letter to shareholders, Operational highlights, Financial charts, Directors' report and its annexure, Management Discussion and Analysis, Corporate Governance report, Business Responsibility report, Dividend distribution policy, and Performance trend but does not include the standalone financial statements, Consolidated Financial Statements and our Auditor's reports thereon.
06. Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

07. In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
08. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

09. The Board of Directors of the Parent is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group in accordance with the Ind AS, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Parent, as aforesaid.
10. In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.
11. The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement

when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

13. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the Consolidated Financial Statements of which we are the independent auditors. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Parent and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

01. In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended March 31, 2022, we have audited the Internal Financial Controls over financial reporting of Amal Limited ("the Parent"), its subsidiary companies as of that date.

Management's responsibility for Internal Financial Controls

02. The respective Board of Directors of the Parent, its subsidiary companies are responsible for establishing and maintaining Internal Financial Controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over financial reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI) . These responsibilities include the design, implementation and maintenance of adequate Internal Financial Controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's responsibility

03. Our responsibility is to express an opinion on the Internal Financial Controls over financial reporting of the Parent and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
04. Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls system over financial reporting and their

operating effectiveness. Our audit of Internal Financial Controls over financial reporting included obtaining an understanding of Internal Financial Controls over

financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the Auditor's judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

05. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Internal Financial Controls system over financial reporting of the Parent, its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls over financial reporting

06. The Internal Financial Control over financial reporting of a company is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with Generally Accepted Accounting Principles. The Internal Financial Control over financial reporting of a company includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with Generally Accepted Accounting Principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of Management and Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of assets of the company that could have a material effect on the Financial Statements.

Inherent limitations of Internal Financial Controls over financial reporting

07. Because of the inherent limitations of Internal Financial Controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls over financial reporting to future periods are subject to the risk that the Internal Financial Control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

08. In our opinion to the best of our information and according to the explanations given to us, Parent and its subsidiary companies have, in all material respects, an adequate Internal Financial Controls system over financial reporting and such Internal Financial

Note 1 Significant accounting policies

This Note provides a list of the significant accounting policies adopted by the Group in preparation of these Consolidated Financial Statements. These policies have been consistently applied to all the years presented unless otherwise stated. The Consolidated Financial Statements are for the Group consisting of the Company and its subsidiary company.

a) Statement of compliance

The Consolidated Financial Statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and other relevant provisions of the Act, as amended.

b) Basis of preparation

i) Historical cost convention:

The Consolidated Financial Statements have been prepared on a historical cost basis except for the following:

- a) Certain financial assets and liabilities (including derivative instruments): measured at fair value
- b) Defined benefit plans: plan assets measured at fair value

ii) The Consolidated Financial Statements have been prepared on accrual and going concern basis.

iii) Accounting policies are applied consistently to all the periods presented in the Consolidated Financial Statements. All assets and liabilities have been classified as current or non-current as per the normal operating cycle of the Group and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

iv) New and amended in the Companies Act, 2013 and the Companies (CSR Policy) Amendment Rules, 2021 adopted by the Group: The Group has applied the following amendments to Schedule III to the Companies Act, 2013 and the Companies (CSR Policy) Amendment Rules, 2021 for its annual reporting period commencing April 01, 2021:

- a) The Ministry of Corporate Affairs (MCA) has amended Schedule III of the Companies Act 2013, on March 24, 2021. Schedule III of the Companies Act 2013, provides the format of financial statements of companies complying with Accounting Standards (AS) and Ind AS under its Division I and Division II, respectively.
- b) The MCA has notified provisions relating to CSR vide the Companies (Amendment) Act, 2019, Companies (Amendment) Act, 2020, and the Companies (Corporate Social Responsibility Policy) Amendment Rules, 2021, which is effective from January 22, 2021.

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

v) Recent accounting pronouncements:

The MCA notifies new standards or amendment to the existing standards under the Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, the MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022 as follows:

Ind AS 16 - Property, Plant and Equipment:

The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the Consolidated Statement of Profit and Loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Group has evaluated the amendment and there is no impact on its Consolidated Financial Statements.

Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets:

The amendment specifies that the cost of fulfilling a contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples may be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example may be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Group has evaluated the amendments and the impact is not expected to be material.

Notes to the Consolidated Financial Statements

c) Basis of consolidation

i) Subsidiary company

Subsidiary company is entity over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity, Subsidiary company is consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. The Group reassesses whether or not it controls an investee, if facts and circumstances indicate that there are one or more changes to elements of control described above.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the Financial Statements of the Parent and its subsidiary company line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting Policies of subsidiary company have been changed where necessary, to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiary company are shown separately in the Consolidated Statement of Profit and Loss, Consolidated Statement of changes in equity and Consolidated Balance Sheet respectively.

ii) Changes in ownership interest:

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interest in the subsidiary company. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purpose of subsequently accounting for the retained interest as an associate company, joint venture company or financial asset. In addition, any amount previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to the Consolidated Statement of Profit and Loss.

d) Foreign currency transactions

i) Functional and presentation currency:

Items included in the Financial Statements of each entity of the Group are measured using the currency of the primary economic environment in which the entity operates (functional currency). The Consolidated Financial Statements are presented in Indian Rupee (₹), which is also the functional currency of the Company.

ii) Transactions and balances:

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gain | (loss) resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in the Consolidated Statement of Profit and Loss except that they are deferred in other equity if they relate to qualifying cash flow hedges.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Consolidated Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Consolidated Statement of Profit and Loss on a net basis within other income.

Non-monetary items that are measured at fair value that are denominated in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain | (loss). Non-monetary items that are measured in terms of historical cost in foreign currency are not revalued.

Notes to the Consolidated Financial Statements

e) Revenue recognition

i) Revenue from operations:

Revenue is recognised when control of goods is transferred to a customer in accordance with the terms of the contract. The control of the goods is transferred upon delivery to the customers either at factory gate of the Group or specific location of the customer or when the goods are handed over to the freight carrier, as per the terms of the contract. A receivable is recognised by the Group when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Revenue is measured based on the consideration to which the Group expects to be entitled as per contract with a customer. The consideration is determined based on the price specified in the contract, net of the estimated variable consideration. Accumulated experience is used to estimate and provide for the variable consideration, using the expected value method and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. Contracts with customers are for short-term, at an agreed price basis having contracted credit period ranging up to 45 days. The contracts do not grant any rights of return to the customer. Returns of goods are accepted by the Group only on an exception basis. Revenue excludes any taxes or duties collected on behalf of the government that are levied on sales such as goods and services tax and tax collected at source.

ii) Other income:

Interest income from financial assets is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options), but does not consider the expected credit losses.

Dividends are recognised in the Consolidated Statement of Profit and Loss only when the right to receive payment is established; it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

f) Income tax

Income tax expense comprises current tax and deferred tax. Current tax is the tax payable on the taxable income of the current period based on the applicable income tax rates. Deferred income tax is recognised using the Balance Sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Minimum Alternate Tax (MAT) under the provisions of the Income Tax Act, 1961 is recognised as current tax in the Consolidated Statement of Profit and Loss. The credit available under the Act in respect of MAT paid will be recognised as deferred tax asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. Such asset is reviewed at each Consolidated Balance Sheet date.

Deferred income tax is provided in full, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Consolidated Financial Statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit | (loss) nor taxable profit | (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiary company where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future. Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiary company where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

The Group considers reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making the assessment of deferred tax liabilities and realisability of deferred tax assets. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, the Management believes that the Group will realise the benefits of those deductible differences.

Notes to the Consolidated Financial Statements

f) Income tax (continued)

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The Group determines whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments and uses the approach that better predicts the resolution of the uncertainty. The Group applies significant judgement in identifying uncertainties over income tax treatments. The Group assesses whether the Appendix has an impact on its Consolidated Financial Statements.

Upon adoption of Appendix C to Ind AS 12, the Group considered whether it has any uncertain tax positions based on past experience pertaining to income taxes including those related to transfer pricing. The Group has determined its tax position based on tax compliance and present judicial pronouncements and accordingly expects that its tax treatments will be accepted by the taxation authorities.

g) Leases

As a lessee

The Group assesses whether a contract is, or contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: i) the contract involves the use of an identified asset, ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease or iii) the Group has the right to direct the use of the asset.

At the commencement date of the lease, the Group recognises a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for short-term leases (leases with a term of twelve months or less), leases of low value assets and, for contract where the lessee and lessor has the right to terminate a lease without permission from the other party with no more than an insignificant penalty. The lease expense of such short-term leases, low value assets leases and cancellable leases, are recognised as an operating expense on a straight-line basis over the term of the lease.

At the commencement date, lease liability is measured at the present value of the lease payments to be paid during non-cancellable period of the contract, discounted using the incremental borrowing rate. The right-of-use assets is initially recognised at the amount of the initial measurement of the corresponding lease liability, lease payments made at or before commencement date less any lease incentives received and any initial direct costs.

Subsequently, the right-of-use asset is measured at cost less accumulated depreciation and any impairment losses. Lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using effective interest rate method) and reducing the carrying amount to reflect the lease payments made. The right-of-use asset and lease liability are also adjusted to reflect any lease modifications or revised in-substance fixed lease payments.

As a lessor

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease substantially transfer all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Income from operating leases where the Group is a lessor is recognised as income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the Consolidated Balance Sheet based on their nature. Leases of property, plant and equipment where the Group as a lessor has substantially transferred all the risks and rewards are classified as finance lease. Finance leases are capitalised at the inception of the lease at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rent receivables, net of interest income, are included in other financial assets. Each lease receipt is allocated between the asset and interest income. The interest income is recognised in the Consolidated Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the asset for each period.

Under combined lease agreements, land and building are assessed individually.

Notes to the Consolidated Financial Statements

h) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Acquisition cost may also include transfers from equity of any gains or losses on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment.

Subsequent costs are included in the carrying amount of asset or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Gains or losses arising on retirement or disposal of assets are recognised in the Consolidated Statement of Profit and Loss.

Spare parts, stand-by equipment and servicing equipment are recognised as property, plant and equipment if they are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and are expected to be used during more than one period.

Property, plant and equipment that are not ready for intended use as on the date of Consolidated Balance Sheet are disclosed as 'capital work-in-progress'.

Depreciation methods, estimated useful lives and residual value

The charge in respect of periodic depreciation is derived after determining an estimate of expected useful life and the expected residual value at the end of its life of the assets. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their lives.

Depreciation is calculated on a pro-rata basis on the straight-line method from the date of acquisition | installation till the date the assets are sold or disposed of:

Asset category	Estimated useful life
Buildings	5 to 60 years
Plant and equipment	3 to 20 years
Vehicles	6 to 10 years
Office equipment and furniture	3 to 10 years

The useful lives have been determined based on technical evaluation done by the Management | experts which are different from the useful life prescribed in Part C of Schedule II to the Act, in order to reflect the actual usage of the assets. The residual values are not more than 5% of the original cost of the asset. The residual values, useful lives and method of depreciation of property, plant and equipment are reviewed annually and adjusted prospectively, if appropriate.

The property, plant and equipment, including land acquired under finance leases are depreciated over the useful life of the asset or over the shorter of the useful life of the asset and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term.

The carrying amount of an asset is written down immediately to its recoverable amount if the carrying amount of the asset is greater than its estimated recoverable amount.

Land accounted under finance lease is amortised on a straight-line basis over the primary period of lease.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful life.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Consolidated Statement of Profit and Loss within other income.

i) Impairment

The carrying amount of assets are reviewed at each Consolidated Balance Sheet date to assess if there is any indication of impairment based on internal | external factors. An impairment loss on such assessment will be recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount of the assets is net selling price or value in use, whichever is higher. While assessing value in use, the estimated future cash flows are discounted to the present value by using weighted average cost of capital. A previously recognised impairment loss is further provided or reversed depending on changes in the circumstances and to the extent that carrying amount of the assets does not exceed the carrying amount that would have been determined if no impairment loss had previously been recognised.

j) Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits with bank and other short-term (three months or less from the date of acquisition), highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

Notes to the Consolidated Financial Statements

k) Trade receivables

Trade receivables are recognised when the right to consideration becomes unconditional. These assets are held at amortised cost, using the effective interest rate (EIR) method where applicable, less provision for impairment based on expected credit loss.

l) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised initially at their fair value and subsequently measured at amortised cost using the EIR method.

m) Inventories

Inventories are stated at cost or net realisable value, whichever is lower. Cost is determined on periodic moving weighted average basis.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to effect the sale.

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventory to the present location and condition.

Due allowances are made for slow | non-moving, defective and obsolete inventories based on estimates made by the Group.

Items such as spare parts, stand-by equipment and servicing equipment that are not plant and machinery get classified as inventory.

n) Investments and other financial assets

Classification and measurement

The Group classifies its financial assets in the following measurement categories:

- i) Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss)
- ii) Those measured at amortised cost

The classification depends on business model of the Group for managing financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income (OCI). For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through OCI.

Debt instruments

Initial recognition and measurement:

Financial asset is recognised when the Group becomes a party to the contractual provisions of the instrument. Financial asset is recognised initially at fair value plus, in the case of financial asset not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial asset carried at fair value through profit or loss are expensed in the Consolidated Statement of Profit and Loss.

Subsequent measurement:

Subsequent measurement of debt instruments depends on the business model of the Group for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the EIR method less impairment, if any, the amortisation of EIR and loss arising from impairment, if any is recognised in the Consolidated Statement of Profit and Loss.

Measured at fair value through other comprehensive income (FVOCI):

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognised in the OCI. Interest income measured using the EIR method and impairment losses, if any are recognised in the Consolidated Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to other income in the Consolidated Statement of Profit and Loss.

Measured at fair value through profit or loss(FVPL):

A financial asset not classified as either amortised cost or FVOCI, is classified as FVPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as other income in the Consolidated Statement of Profit and Loss.

Notes to the Consolidated Financial Statements

Equity instruments

The Group subsequently measures all investments in equity instruments at fair value. The Management of the Group has elected to present fair value gains and losses on its investment equity instruments in other comprehensive income and there is no subsequent reclassification of these fair value gains and losses to the Consolidated Statement of Profit and Loss. Dividends from such investments continue to be recognised in the Consolidated Statement of Profit and Loss as other income when the right to receive payment is

Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade and lease receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of such receivables. The Group computes expected lifetime losses based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

Derecognition

A financial asset is derecognised only when the Group has transferred the rights to receive cash flows from the financial asset, the asset expires or the Group retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised through the Consolidated Statement of Profit and Loss or other comprehensive income as applicable. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Financial liabilities

i) Classification as debt or equity:

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

ii) Initial recognition and measurement:

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the fair value.

iii) Subsequent measurement:

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Consolidated Statement of Profit and Loss.

iv) Derecognition:

A financial liability is derecognised when the obligation specified in the contract is discharged or cancelled or expired.

o) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the Consolidated Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the assets and settle the liabilities simultaneously.

p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in Consolidated Statement of Profit and Loss over the period of the borrowings using the EIR method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. If not, the fee is deferred until the draw down occurs.

Notes to the Consolidated Financial Statements

p) Borrowings (continued)

Borrowings are removed from the Consolidated Balance Sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in Consolidated Statement of Profit and Loss as other income | (expense).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

q) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

r) Provisions and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each year end and reflect the best current estimate. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

s) Employee benefits

Defined benefit plan

Gratuity:

Gratuity liability is a defined benefit obligation and is computed on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method at the end of each financial year. The liability or asset recognised in the Consolidated Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The liability so provided is represented by creation of separate fund and is used to meet the liability as and when it becomes due for payment in future. Any shortfall in the value of assets over the defined benefit obligation is recognised as a liability with a corresponding charge to the Consolidated Statement of Profit and Loss.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows with reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate at the beginning of the period to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Consolidated Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur directly in other comprehensive income. They are included in retained earnings in the Consolidated Statement of changes in equity and in the Consolidated Balance Sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Notes to the Consolidated Financial Statements

s) Employee benefits (continued)

Defined contribution plan

Contributions to defined contribution schemes such as contribution to provident fund, superannuation fund, employees' state insurance corporation, national pension scheme and labours welfare fund are charged as an expense to the Consolidated Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as defined contribution schemes as the Group has no further defined obligations beyond the monthly contributions.

Short-term employee benefits

All employee benefits payable within 12 months of service such as salaries, wages, bonus, ex-gratia, medical benefits, etc are recognised in the year in which the employees render the related service and are presented as current employee benefit obligations. Termination benefits are recognised as an expense as and when incurred.

Short-term employee benefits are provided at undiscounted amount during the accounting period based on service rendered by employees.

Other long-term employee benefits

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

t) Earnings per share

Earnings per share (EPS) is calculated by dividing the net profit or loss for the period attributable to equity shareholders of Amal Ltd by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the EPS is the net profit for the period and any attributable tax thereto for the period.

For the purpose of calculating diluted EPS, the net profit for the period attributable to equity shareholders of Amal Ltd and the weighted average number of equity shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Estimation of uncertainties relating to the COVID-19 pandemic

The Group has considered possible effects that may result from the COVID-19 pandemic and Russia-Ukraine war in preparation of these Consolidated Financial Statements, and used relevant internal and external sources of information and expects that these events will not have any material implications on the operations of the Group in the near future.

Critical estimates and judgements

Preparation of the Consolidated Financial Statements require the use of accounting estimates, judgements and assumptions, which by definition, will seldom equal the actual results. Appropriate changes in estimates are made as the Management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the Consolidated Financial Statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the Consolidated Financial Statements. This Note provides an overview of the areas that involves a higher degree of judgement or complexity and of items that are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Consolidated Financial Statements.

The areas involving critical estimates or judgements are:

- i) Estimation for income tax: Note 1 (f)
- ii) Estimation of useful life of tangible assets: Note 1 (h)
- iii) Estimation of provision for inventories: Note 1 (m)
- iv) Allowance for credit losses on trade receivable: Note 1 (k)
- v) Estimation of claims | liabilities: Note 1 (r)
- vi) Estimation of defined benefit obligation: Note 1 (s)
- vii) Impairment: Note 1 (n)

Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	Change in assumptions		Impact on defined benefit obligation			
			Increase in assumptions		Decrease in assumptions	
	As at March 31, 2022	As at March 31, 2021	As at March 31, 2022	As at March 31, 2021	As at March 31, 2022	As at March 31, 2021
Discount rate	1.00%	1.00%	(5.62%)	(7.45%)	6.27%	8.50%
Attrition rate	1.00%	1.00%	(2.03%)	(1.38%)	2.19%	1.47%
Salary escalation rate	1.00%	1.00%	5.92%	8.31%	(5.46%)	(7.43%)

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied while calculating the defined benefit liability recognised in the Consolidated Balance Sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change as compared to the previous year.

Notes to the Consolidated Financial Statements

Note 26.5 Employee benefit obligations (continued)

Risk exposure

Through its defined contribution plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

i) Interest rate risk

A fall in the discount rate which is linked to the government securities rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

ii) Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan liability.

iii) Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate, which is determined with reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities and other debt instruments.

iv) Concentration risk

Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

The weighted average duration of the defined benefit obligation is seven years (2020-21: nine years). The expected maturity analysis of gratuity is as follows:

Particulars					(₹ lakhs)
	Less than a year	Between 1 - 2 years	Between 2 - 5 years	Over 5 years	Total
Defined benefit obligation (gratuity)					
As at March 31, 2022	1.06	1.30	4.12	14.32	20.80
As at March 31, 2021	0.51	0.51	1.96	13.78	16.77

b) Other long-term benefits

Leave encashment is payable to eligible employees who have earned leaves, during the employment and | or on separation as per the policy of the Group. Valuation in respect of leave encashment has been carried out by an independent actuary, as at the Balance Sheet date, based on the following assumptions:

Expenses recognised for the year ended on March 31, 2022 (included in Note 23)			(₹ lakhs)
	2021-22	2020-21	
Present value of unfunded obligations	10.47	6.26	
- Current	1.59	0.75	
- Non-current	8.88	5.51	
Expense recognised in the Consolidated Statement of Profit and Loss	4.62	0.66	
Discount rate	6.41%	6.44%	
Salary escalation rate	10.70%	7.62%	

c) Defined contribution plans:

Provident fund

State defined contribution plans

Employers' contribution to employees' state insurance

Employers' contribution to employees' pension scheme 1995

The provident fund and the state defined contribution plans are operated by the Regional Provident Fund Commissioner. Under the scheme, the Group is required to contribute a specified percentage of payroll cost to the retirement benefit scheme to fund the benefits. These funds are recognised by the income tax authorities. The contribution of the Group to the provident fund and other contribution plans for all employees is charged to the Consolidated Statement of Profit and Loss.

The Group has recognised the following amounts in the Consolidated Statement of Profit and Loss for the year (refer Note 23):

Particulars			(₹ lakhs)
	2021-22	2020-21	
Contribution to provident fund	4.58	2.70	
Contribution to employees pension scheme 1995	5.53	3.81	
Contribution to employees' state insurance	1.15	0.77	
Contribution to employee depository linked insurance	0.33	0.23	
	11.59	7.52	

Estimation of social security code:

The Parliament of India has approved the Code on Social Security, 2020 (the Code), which may impact the contributions by the Company towards provident fund, gratuity and ESIC. The Ministry of Labour and Employment, Government of India, has released draft rules for the Code on November 13, 2020. Final rules are yet to be notified. The Company will assess the impact of the Code when it comes into effect and will record related impact, if any.

a) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are: a) recognised and measured at fair value and b) measured at amortised cost and for which fair values are disclosed in the Consolidated Financial Statements. To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the 3 levels prescribed in the Indian Accounting Standard.

An explanation of each level follows underneath the table:

i) Financial assets and liabilities measured at fair value as at March 31, 2022	(₹ lakhs)			
	Level 1	Level 2	Level 3	Total
Financial assets				
Financial investments measured at FVPL:				
Unquoted equity shares ¹	-	-	42.77	42.77
Mutual funds at FVPL	-	-	-	-
Total financial assets	-	-	42.77	42.77

ii) Financial assets and liabilities measured at fair value as at March 31, 2021	(₹ lakhs)			
	Level 1	Level 2	Level 3	Total
Financial assets				
Financial investments measured at FVPL:				
Unquoted equity shares ¹	-	-	42.77	42.77
Mutual funds at FVPL	-	1,911.74	-	1,911.74
Total financial assets	-	1,911.74	42.77	1,954.51

¹Includes investments in Bharuch Enviro Infrastructure Ltd (21,000 equity shares) and Narmada Clean Tech Ltd (4,06,686 equity shares), which are for operation purposes and the Company expects its refund on exit. The Group estimates that the fair value of these investments are not materially different as compared to its cost.

There were no transfers between any levels during the year.

Level 1: This hierarchy includes financial instruments measured using quoted prices. The fair value of all equity instruments that are traded on the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques, which maximise the use of observable market data and rely as little as possible on entity-specific estimates. The mutual fund units are valued using the closing net assets value. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

b) Valuation techniques used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments,
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

c) Valuation processes

The Finance department of the Group includes a team that performs the valuations of financial assets and liabilities with assistance from independent external experts when required, for financial reporting purposes, including level 3 fair values.

Notes to the Consolidated Financial Statements

Note 26.6 Fair value measurements (continued)

d) Fair value of financial assets and liabilities measured at amortised cost

Particulars	(₹ lakhs)	
	As at March 31, 2022	As at March 31, 2021
	Carrying amount Fair value	Carrying amount Fair value
Financial assets		
Security deposits for utilities and premises	22.66	37.35
Sales tax paid under protest	-	0.50
Total financial assets	22.66	37.85
Financial liabilities		
Borrowings	5,105.32	565.05
Lease liability	-	0.87
Total financial liabilities	5,105.32	565.92

The carrying amounts of trade receivables, bank deposits with less than 12 months maturity, cash and cash equivalents, trade payables, capital creditors, employee benefits payable, payable towards expenses and security deposits payable are considered to be the same as their fair values due to the current and short-term nature of such balances.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note 26.7 Financial risk management

The business activities of the Group are exposed to a variety of financial risks, namely liquidity risk, market risk and credit risk. Responsibility for the establishment and oversight of the risk management framework lies with the Senior Management of the Group. The Group has constituted a Risk Management Committee, which is responsible for developing and monitoring the risk management policies of the Group. The key risks and mitigating actions are also placed before the Audit Committee of the Group. The risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the activities of the Group.

The Risk Management Committee of the Group is supported by the Finance team and experts who provide assurance that the financial risk activities of the Group are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the policies and risk objectives of the Group. The objective of the Management is to maintain financial risk and market risk within acceptable parameters, while optimising returns.

This note explains the risks which the Group is exposed to and how the Group manages the risks in the Consolidated Financial Statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Aging analysis and credit rating	Diversification of investments in mutual fund and credit limits
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

a) Credit risk

Credit risk is the risk of financial loss to the Group, if a customer or counterparty fails to meet its contractual obligations. Credit risk arises from cash and cash equivalents, financial assets measured at amortised cost or fair value through profit and loss and deposits with banks and financial institutions, as well as credit exposures to trade | non-trade customers including outstanding receivables.

i) Credit risk management

Credit risk is managed through the policy surrounding Credit Risk Management.

ii) Provision for expected credit losses

The Group provides for expected credit loss based on the following:

Trade receivables

Trade receivables consist of few customers, majorly of amount receivable from Atul Ltd, the holding company, for which ongoing credit evaluation is performed on the financial condition of the account receivables. Historical experience of collecting receivables of the Group is supported by low level of past default and hence the credit risk is perceived to be low.

b) Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, who has approved an appropriate liquidity risk management framework for short, medium and long term funding and liquidity management requirements of the Group. The Management monitors rolling forecasts of the liquidity position of the Group and cash and cash equivalents on the basis of expected cash flows and manages liquidity risk by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

The following table shows the maturity analysis of financial liabilities of the Group based on contractually agreed undiscounted cash flows including contractual interest payment, as at the Balance Sheet date:

Contractual maturities of financial liabilities as at March 31, 2022	(₹ lakhs)		
	Less than 1 year	More than 1 year	Total

c) Market risk

i) Cash flow and fair value interest rate risk

Maturity analysis of financial liabilities of the Group is based on contractually agreed undiscounted cash flows as at the Balance Sheet date:

Borrowings of the Company from the Atul Ltd (Holding Company) and have a fixed rate borrowings that is 0% and are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Borrowings of the Company are from Axis Bank Ltd and is mainly exposed to interest rate risk due to its variable interest rate borrowings. The interest rate risk arises due to uncertainties about the future market interest rate of these borrowings.

As an estimation of the approximate impact of the interest rate risk, with respect to financial instruments, the Group has calculated the impact of a 25 bps change in interest rates. A 25 bps increase in interest rates might have led to approximately an additional impact of ₹12.33 lakhs (2020-21: ₹0.61 lakhs). A 25 bps decrease in interest rates might have led to an equal but opposite effect.

ii) Price risk

Exposure

The Group is mainly exposed to the price risk due to its investments in mutual funds. The price risk arises due to uncertainties about the future market values of these investments. In order to manage its price risk arising from investments in equity instruments, the Group maintains its portfolio in accordance with the framework set by the risk management policies.

- **RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES**

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of

India (formerly known as the Department of Industrial Policy and Promotion) (“DPIIT”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Circular 2020**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid in order to make any investment in the Issue. The Lead Manager and our Company will not be responsible for any allotments made by relying on such approvals.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“**OCBs**”) have been derecognised as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants/ Investors. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
